

We will do the worst one for nothing.

Start any plan and your first cleanup is free — whatever state the yard is in. Not a discount off the first month. The whole first visit, at no charge.

FREE

First cleanup, any plan.

The visit that takes the longest is the one you do not pay for. After that it is a flat monthly rate and about fifteen minutes of our week.

WHY WE GIVE THAT ONE AWAY

Because it is the visit people dread booking.

Nobody calls a scooping service when the yard is fine. They call in March, or after a bad stretch, when it has got to the point of being embarrassing — and then they put off calling because of exactly that.

So we take that visit off the table. You are not paying us to fix a backlog, you are paying us to make sure there is never another one. We have not been scared off a yard yet, and we are not going to say anything about yours.
