

DOG WASTE REMOVAL

We were on your street today.

One of your neighbours has us clear the yard every week. We were parked here this morning.

First cleanup free with any residential plan

We are already coming this way

Adding your yard to a stop we already make is the cheapest kind of work we do, and it is why the price holds.

You never have to be home

We let ourselves in the gate, clear the whole yard, haul it off, and check the latch on the way out.

No contract, ever

Flat monthly rate, month to month. Pause it, change the frequency, or stop whenever you like.
