

The complaint that never reaches your desk.

Scheduled dog waste removal for common areas across St. Louis and St. Charles County.
One vendor, one invoice, and a route that runs whether anyone reminds us or not.

• HOAs • Apartment communities • Dog parks • Kennels • Vet clinics • Office parks

THE PROBLEM

It is never one resident.

By the time a board hears about the common area, it has already been bad for a month. The dog-owning residents blame each other, the ones without dogs blame management, and someone proposes a fine nobody wants to enforce.

Signage does not fix it, and stations without a pickup schedule fill up and become the complaint themselves.

WHAT WE DO

We take it off the agenda.

We walk the property on a fixed schedule, clear every common area, and haul the waste off site. Pet stations get restocked on the same visit, so bags never run out between board meetings.

You get a written scope and a flat monthly rate before we start. No per-pile billing, no surprise line items.

Fixed schedule

Daily through monthly. The route runs on our calendar, not on your reminders.

One invoice

Flat monthly rate by property. Card or ACH, billed at the start of the service month.

Insured and local

Based in Chesterfield. The same crew each week, and you will know their names.

Stations included

Install and restocking folded into the route at no separate charge.

EVERY SCHEDULED VISIT

- Full sweep of all common areas and greenways
- Pet stations restocked and wiped down
- Waste hauled off site, never left in your dumpster
- Gates and access points closed behind us

Free walkthrough, written quote.

We walk the property with you, count the stations, and send pricing in writing. No charge and no obligation to sign anything.
