

THE ARITHMETIC

Eighteen fifty a visit.

The weekly plan is \$80 a month. Across fifty-two visits a year that is about \$18.50 each.

\$18.50

Per visit, weekly plan

Roughly two coffees. Only one of them also gets the dog out of the mud.

The fifteen minutes is not the point.

Almost nobody hires this out to save a quarter of an hour. They hire it out because it is the chore that never gets done on time — it gets done when it has become bad enough to notice, which is always later than it should be.

A schedule fixes that in a way willpower does not. The yard stops having a worst state, because nothing accumulates long enough to get there.

PER VISIT, ACROSS A YEAR

- Twice weekly — \$90/mo, about \$10.40 a visit
- Weekly — \$80/mo, about \$18.50 a visit
- Every other week — \$70/mo, about \$32 a visit
- Once a month — \$65/mo, one reset

maxspoocrew.com

Twice weekly is the cheapest per visit. That surprises most people.
